Project No. 2.2.1.1/17/I/021 "Development of the construction process and information system (1st round)"

On November 30, 2017, with the financial support of the European Regional Development Fund (ERDF), The State Construction Control Bureau of Latvia by concluding an agreement with Central Finance and Contracting Agency started a project No. 2.2.1.1/17/I/021 "Development of the construction process and information system (1st round)".

Project No. 2.2.1.1/19/I/005 "Development of the construction process and information system (2nd round)"

The agreement signed on the ERDF project "Development of the construction process and information system. 2nd round (No. 2.2.1.1/19/I/005)" states that over the next four years it is envisaged not only to supplement and improve the solutions already available at www.bis.gov.lv but also to produce new ones. It is expected to create a new functionality for coordinating and taking decisions on structures, offer unprecedented possibilities to use data of electronic working time accounts in construction supervision, develop a BIS mobile app, establish a record that includes disposal of construction waste, and introduce other major innovations.

The System is developed by SIA Tieto Latvia, while advisory support in the project is provided by SIA AA Projekts.

Project partners include the Ministry of Education and Science, the State Regional Development Agency, the Court Administration, the State Land Service, the Ministry of Economics and the Latvia State Radio and Television Centre.
